

# OLANREWAJU OLUWAYINKA

Web Developer | Penetration Tester | Cybersecurity Analyst (Entry-Level)

## PROFESSIONAL SUMMARY

Detail-oriented Web Developer and Penetration Tester with a strong foundation in secure web application development, network security assessment, and vulnerability testing. Experienced in identifying and documenting security weaknesses using tools such as Nmap, Metasploitable, Kali Linux, and Wazuh SIEM. Skilled in building responsive web interfaces while applying secure coding practices.

## TECHNICAL SKILLS

**Web Development:** HTML5, CSS3, JavaScript, Responsive Design, Git, GitHub

**Cybersecurity:** Nmap, Metasploitable, OWASP Top 10 (Foundational), Kali Linux, Wazuh SIEM

**Programming:** Python (Scripting), SQL (Basic Queries)

**Platforms:** Linux (Kali, Ubuntu), VirtualBox, VS Code

## PROJECTS & HANDS-ON EXPERIENCE

### Network Security & Penetration Testing Labs

- Performed vulnerability scanning and enumeration on test systems using Nmap.
- Conducted controlled exploitation exercises on Metasploitable for learning purposes.
- Documented findings, risks, and basic remediation steps.
- Monitored system activity and alerts using Wazuh SIEM.

### Secure Web Development Projects

- Built responsive web pages using HTML, CSS, and JavaScript.
- Implemented clean layouts optimized for multiple screen sizes.
- Applied basic security awareness to reduce common web vulnerabilities.

## EDUCATION

Bachelor of Science (B.Sc.) in Marine Geoscience

Federal University of Technology Akure — 2024

## SOFT SKILLS

Analytical Thinking, Attention to Detail, Documentation & Reporting, Team Collaboration, Problem Solving

## INTERESTS

Web Application Security, Ethical Hacking, Secure Systems Design, Technology Innovation
